

Eolis Belgique

1 | Company and port presentation

EOLIS Belgium is a multi-service logistics company, subsidiary of the Company Fruitière Group (Marseille, France), a leading producer and distributor of fruits and vegetables worldwide. We are specialized in the import-export, transport and forwarding of goods.

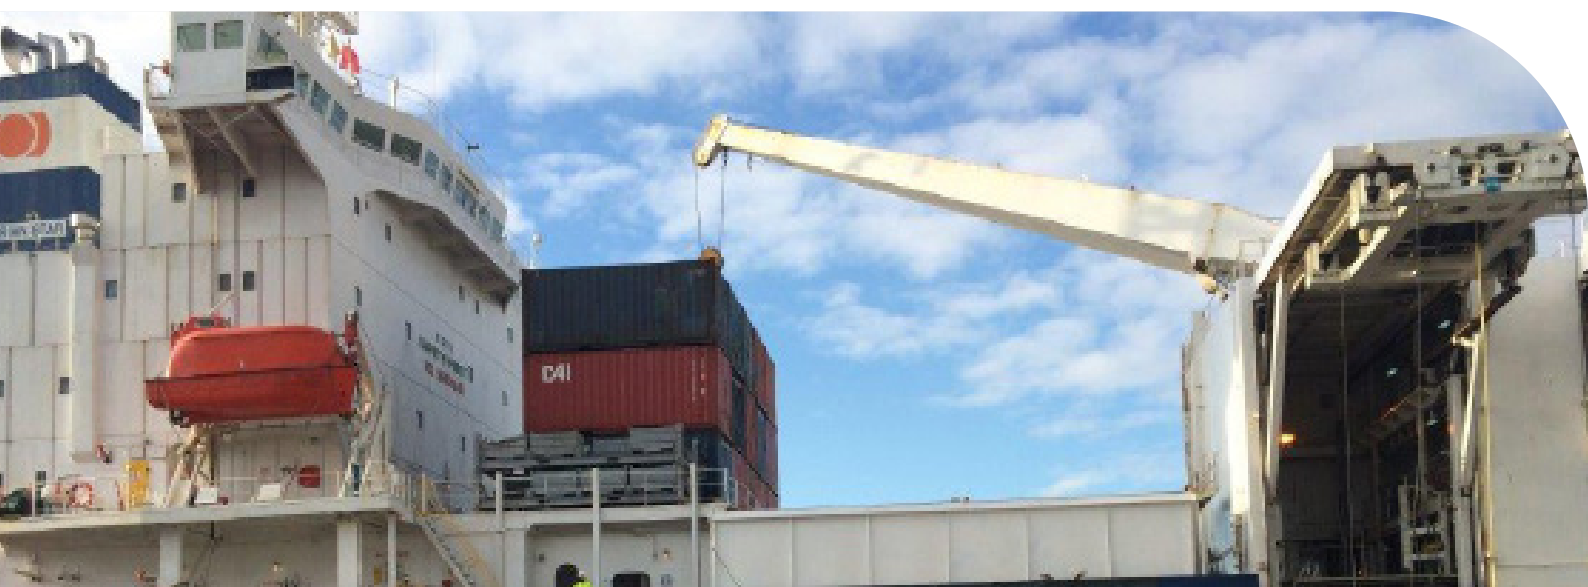

The company is located in the port of Antwerp-Bruges, Europe's second largest port with more than 300 liner services and 800 destinations, offering an international panel of connections and handling millions of tons of maritime cargo every year.

Our teams benefit from a large experience in logistics and transit services but also from permanent connections between Africa and Europe provided by our partnerships with Africa Express Line (AEL) and EAGLE.

We also rely on a solid partnership with Eurofruitports (EFP) in the form of a joint venture between Compagnie Fruitière and Euroports Breakbulk Terminal, our logistical partner in the port of Antwerp. EFP offers excellent connections to hinterland destinations via mainroads and sufficient barge connections to the important European ports. It is located on a 1,900 m quay length with two dedicated fruit berth, a storage capacity of 500 000 tons and a maximum draft of 13.94m. The company is specialized in handling fruits and perishables (mainly bananas) and operates from a 38.700 sqm multi-purpose water bound terminal containing:

- 13.600 sqm coldstore
- 8.100 sqm dry warehouse for export
- Container hub & repair site of 17.500 sqm and 500 reefer plugs

Backed by our expertise, sea fleet and certifications, we guarantee our customers a regular assistance in their shipments and safe customs procedures for their exportations.

2 | Services

Customs

Customs team

Eolis Belgium has an in-house customs department. We offer an extremely smooth and flexible customs service thanks to:

- the expertise of our own team of fully fledged customs brokers
- our in-house approach to phytosanitary and veterinary inspections

Creation of import and export documents

Our experienced team of customs brokers is responsible for the preparation and follow-up of all customs formalities, such as customs clearances, transit documents (certificates, permits, registrations, phyto inspections, CMR...) and export documents.

Follow-up

The follow-up of customs' scans and physical checks is also part of our customs activities

In the event of any complications, we are the point of contact and we will seek an appropriate solution in consultation with you.

Shipping commodities

We represent the general agent TRANSIT FRUITS for all shipments made under EAGLE bills of lading, on weekly vessels operated by AEL (Africa Express Line).

Direct and short transit times from Antwerp to Abidjan, Douala, Tema and Dakar are guaranteed. We deliver IN TIME. Always.

Our dedicated team - based in the center of beautiful Antwerp - is making the difference every day by offering our customers HANDS-ON and PERSONAL service.

Eolis Belgium makes your export shipments from Antwerp port easy :

- Reefer (food & pharma) & Dry containers
- Breakbulk & Project
- Logistics services at origin
- Logistics services at destination
- Warehouse handling
- Customs clearance & fiscal representation (AEO certified)
- Door pick-up & delivery Container stuffing

Transport

Trusted solution for transporting temperature-controlled products and general cargo:

Eolis Belgium specializes in the transport and logistics of fresh and dry products. We offer a full range of services to ensure the safe and timely delivery of your products. Thanks to our expertise and our network of partners, we are able to deliver to you anywhere in Europe.

We use refrigerated trailers and containers to ensure freshness and quality, as well as tarpaulin trucks for the transport of dry products.

- Secure and Tailor-made transport:
We have a fleet of vehicles adapted to the transport of fresh and dry products, equipped with temperature control systems to guarantee their freshness during the journey.
- Carrier :
Recognized expertise in controlled temperature transport thanks to our collaboration with about a hundred carriers.
- Follow-up :
Thanks to our dedicated and multilingual team, we provide advanced follow-up and solutions adapted to your transport. We offer a reliable and efficient supply chain for your products, throughout Europe.
- Commitment :
We have an efficient network allowing fast delivery with competitive prices.

Quality control

Your expert in fruits' controls and inspections. Our team is dedicated to ensure the quality of your products through meticulous checks of the goods discharged in Antwerp.

- Fruits quality inspection specializing in bananas, pineapples, tomatoes and mangoes but not limited to that;
- Visual inspections of defects;
- Control of weights, temperatures, calibers.
Our team also ensures that fruits are stored at the appropriate temperatures and conditions to maintain their quality during storage;
- Regular monitoring of the stock of fruits in storage facilities or warehouses;
- Identification and removal of any spoiled or damaged fruits from the stock to prevent contamination and maintain overall quality;
- Quick and regular feedbacks on your quality results.
